"PIN-HOOKING . . . BREAD AND BUTTER . . . AND THREE WEEKS"

I, the editor, am nothing more or less than a farm boy. From recollections of early childhood (tush, tush Mr Wordsworth) I know the carryings on of potato bugs, corn planters, new ground plowing and heifers. I have lived "down on the farm", grown up with farmers, depended upon farmers for a living, and rolled up my sleeves to fight for what I honestly thought was best for farmers. I wouldn't feel "to home" in New York, my ankles weren't made for spats, I have no use for a finger bowl and deep in my heart I believe I can swing a hoe better than I can a niblick.

Down here in Virginny, there are three things you can usually say about a farmer. He is a Democrat, either a Baptist or a Methodist, and he is proud of being independent.

This editorial has the latter for a hitching post.

The independence claimed by the farmer was once a reality, but has now given birth to a hybred joke. And the youngster is bloated with over-production, is collicky with mortgages, spoiled with "farm-relief promises" and making a living is like a packet of safety pins sticking through our home spun panties.

Consider if you please, what no less than 32½ of the farmers in the Dark-Fired tobacco belt are really doing. Yes sir. Thirty-two per cent are refusing so far to come in with their neighbors to build strength . . . thirty-two per cent want "PIN-HOOKING to CONTINUE."

PIN-HOOKING: The most farcical joke this edulycated farm boy has ever heard. Pin-Hooking. Bribing a man to bid on your tobacco! Hysterically grabbing at a straw and enabling an army of "pin-hookers" to live as parasites on your offerings. If the principle of "pin-hooking" was used by other business, the nation would collapse in three months.

Just think, 32½ of the farmers in the dark-fired belt are willing to go and say to the buyers: "Here's our year's work, give us whatever you like and we'll bring you plenty more next year."

Has anyone of you enough imagination to picture General Motors or Henry Ford unloading several carloads of automobiles in Appomattox and posting a sign saying: "Here are nice new cars . . . give us whatever you like for them, 30c or $30 and we'll give you a title to the car and ship in plenty more next week so your friends can get one too!

What would you think of the business sense of a merchant who called in all his customers and said, "here's my stock of goods, everything I own, take it all and drop a silver offering in the box by the door."

Year after year you have taken your tobacco, your BREAD AND BUTTER, your LIVELIHOOD to Farmville, Lynchburg, Blackstone, and elsewhere and said, "Here it is, all I've got, Give me whatever you like for it. And I'll make out somehow, maybe the government will take a mortgage on my farm so I can bring you another crop."

Yes you have.

And now, you've got three weeks to put over a drive for a better day. So far 68% of the farmers in the dark belt have come out brave and true for organization. So far 32% have turned a deaf ear and are willing to barter their BREAD and BUTTER for hope in PIN-HOOKERS.

The new ASSOCIATION must have 75% of the acreage signed up in three weeks (by June 25) or else, . . . well, or else there won't be any association.

Independence is a myth unless it means security. The tobacco farmer is not independ-

Editor, Times-Virginian,
Dear Sir,

Please print the following verses in your paper.

People Will Talk

You may get through the world
But t'will be very slow,
If you listen to all that is said
as you go;
You'll be worried and fretted,
And kept in a stew—
For meddlesome tongues must
have something to do.
And people will talk.

If quiet and modest, you"ll have it presumed
That your humble position is only assumed,
You're a wolf in sheep's clothing, or else you're a fool;
But don't get excited—keep perfectly cool.
For people will talk.

If threadbare your dresses, or old fashioned your hat,
Someone will surely take notice of that;
And hint rather strongly you can't pay your way,
But don't get excited whatever they say.
For people will talk.

If you dress in fashion, don't try to escape
For they criticise then in a different shape—
You are ahead of your means,
Or your tailor's unpaid;
But mind your own business—
There is naught to be made.
For people will talk.

Now the best way to do is to do as you please,
For your mind, if you have one, will be at ease.
Of course you will meet with all abuse;
But don't think to stop—It ain't any use—
For people will talk.

ent if he is mortgaged to the limit, losing money, can't pay his taxes, loses his credit and is a slave to the pin-hookers. I've got that in my pipe smoking it, and you can do the same.

The Association may or may not bring prosperity. But it is a step in the right direction. Something tells me that a lot has to be done in the way of curtailing, improving the quality of the crop and all that . . . but how are we to do all this unless we have organization?

Appomattox County has its quota. Our farmers, in a great big majority are "WITH THE ASSOCIATION."

But 32% in the dark belt are not, according to the report at Farmville Saturday.

We've got just three weeks to pursuade, beg, plead, and reason with that 32%. No use clouding the issue. Let's have them.

Clinic Program For June Is Announced

Issues Statement Explaining The Purpose of Clinics

The Southside Health District has released the following statement in regard to clinics shortly to be held:

"It is a well known fact that everyone can do better work when in good health. This is just as true of school children, and statistics show that fewer children, who are in good physical condition, have to repeat their grades in school than those whose health has been impaired by physical defects.

"We urge parents to have their children given a careful examination by their physician or at one of the clinics, and have defects corrected before they enter school. The Virginia law requires that every child be vaccinated against smallpox before they can remain in school longer than 10 days. It is advisable to have this done early in the summer.

"At the scheduled clinics there will be no charge for examination (children from one month to six years of age), and vaccination against smallpox, and diphtheria and the Schick test will also be free. A charge of 25 cents will be made for typhoid vaccine. All persons who have not had it within the last three years are urged to take it as a precautionary measure. It is because of better sanitation and the use of typhoid vaccine the number of cases of typhoid has been so materially reduced.

"At the scheduled clinics there will be no charge made for examination for all children from one month to 6 years of age); vaccination against small pox and diphtheria, and the Schick test will also be given free. A charge will be made for typhoid vaccine.

For those who cannot get to these scheduled clinics, the same service is given at Appomattox Courthouse each first and third Mondays; colored children at the Training school at 11 o'clock, and white children at the Courthouse at 2 o'clock.

COMFORT for **COLICKY BABIES**
. . . THROUGH CASTORIA'S GENTLE REGULATION

The best way to prevent colic, doctors say, is to avoid gas in stomach and bowels by keeping the entire intestinal tract open, free from waste. But remember this: a tiny baby's tender little organs cannot stand harsh treatment. They must be gently urged. This is just the time Castoria can help most. Castoria, you know, is made specially for babies and children. It is a pure vegetable preparation, perfectly harmless. It contains no harsh drugs, no narcotics. For years it has helped mothers through trying times with colicky babies and children suffering wit digestive upsets, colds and fever Keep genuine Castoria on hand, with the name:
